WOMEN INTO CONSTRUCTION

“

WIC'S MISSION IS TO CHANGE THE FACE OF CONSTRUCTION

The organisation strives to normalise the presence of women at all levels within the industry. It's my personal mission and desire to render WIC's intervention unnecessary, envisioning a future where women in construction are an integral and commonplace part of the workforce.

At Cavendish Professionals we are now gold members of the Women into Construction organisation. Together, we can empower progress and shape a construction industry that reflects the strength, skill, and diversity of its workforce.
